DETAILED ACTION

Claims 1-19 are pending in the application.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13 and 16-19, drawn to the compounds, compositions, process of preparing and method of use of the compounds of formulae I, IV, IX and XXII where $-a^1=a^2-a^3=a^4-$ is (a-1).

Group II, claim(s) 1-13 and 16-19, drawn to the compounds, compositions, process of preparing and method of use of the compounds of formulae I, IV, IX and XXII where $-a^1=a^2-a^3=a^4-$ is (a-2), (a-3), (a-4) or (a-5).

Group III, claim(s) 14 and 15, drawn to complex compositions of the compounds of formula I where $-a^1=a^2-a^3=a^4-$ is (a-1).

Group IV, claim(s) 14 and 15, drawn to the complex compositions of formula I where $-a^1=a^2-a^3=a^4-$ is (a-2), (a-3), (a-4) or (a-5).

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the inventions of Groups I and II are drawn to structurally dissimilar compounds, compositions, process

of preparing and method of use. They are made and used independently. One does not require the other for their use. If, say, the benzimidazoles of Group I, were anticipated, applicants would not acquiesce in the objection of Group II there over or vice-versa and, thus, they are not linked to the same or corresponding special technical features.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups III and IV are complex composition which includes compounds of Groups I and II respectively, and an additional active ingredient.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Tentative election of a single species within the elected group is further required.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
